### Giving Back: Supporting the future of nursing

A marathon is a thrilling, adrenaline-filled experience that can be unpredictable. It's the perfect training ground for University of Wisconsin Oshkosh College of Nursing students.

For the past two years, nursing students have volunteered at our events gaining valuable hands on experience.

*Giving back to the community is the heart of our event. It helps to fulfill our mission: Inspiring health, wellness and community - one step at a time.*

### Sponsor Spotlight: Community First Credit Union

Twenty-nine years ago, Community First Credit Union took a chance on a big idea to launch an event to promote good health, community spirit and volunteerism while "bridging the Fox Cities."

"On inaugural race day, October 13, 1991, seven cities were united by seven bridges ... and by the thousands of runners, spectators and volunteers who worked together to make the dream a reality," according to Community First's annual report to it's member-owners from 1992.

The race has since expanded to an entire weekend of events reaching people from around the world.

Thank you Community First, for your continuing support and commitment to our race!
